
Bods Cannot Find Nt Oracle Server Dll Oci.dll WORK

[Download](#)

August 15, 2556 BC. e. Hello everyone, I am getting the following error while doing my job, my data source is oracle and target database is SQL Server oracle-11. I think it's because of the oracle parameter. I have already changed my oracle data source to "SQL Server oracle-11" but I don't think that will solve the problem, but if anyone can help I would really appreciate it. I'm using Oracle 11g with SQL Server and SQL Developer and my data is named columns that use the ORDER BY

function. I also use SQL Server 2008 Express with SQL Developer. Any help would be appreciated Your problem is similar to Oracle's package problem.
