Illustrator CC is a free.Development of a mild and fast agar-gel electrophoresis method for the determination of biocidal agents in environmental samples. This paper reports the development of a simple and rapid agar-gel electrophoresis method for detecting organic compounds used as biocides in environmental samples. The method is based on the addition of a zone promoting a non-ionic surfactant (Tween 80) to the sample, prior to agar-gel electrophoresis. The method can be used to detect brominated aromatic compounds (Dioxin-like) in concentrations as low as 100 ng l(-1) and is applied in real water samples with highly satisfactory results. The method is simple to perform, fast and applicable to a wide range of organic compounds.STS-6 STS-6 was the sixth Space Shuttle mission, flying in orbit on December 2, 1983.
