The new fantasy action RPG developed by Tokyo RPG Factory, with a global team of many developers as partners. It is inspired by Diablo III and Vanguard: Saga of Heroes. Its debut occurred in the most recent Tokyo Game Show. We brought your development team up to date with our latest game technology. We have strengthened, expanded, and improved a variety of elements of the gameplay, and added fresh elements that further enhance the outstanding atmosphere of the game. There are cases when you can customize your character as well as increasing your muscle strength to become a strong warrior, or mastering magic. The epic drama unfolds in a mystical world where the various thoughts of the characters intersect. We have a strong belief that the game can be even more fun if players are allowed to indulge in the game in their own ways. FULL DETAILS • TYPE Fantasy Action RPG • ABOUT THE DESIGN A deeply-felt atmosphere in a vast world • ABOUT THE PLAYER You can freely customize the appearance of your character, combine weapons, armor, and magic, and deepen the depth of the game. In San Francisco, for example, home prices are at an all time high of around \$1088900 (see chart at bottom of page). If you are thinking of moving to the Bay Area, or just visiting and want to know the likelihood of your home increasing, before you buy we can run some analytics to tell you if the Bay Area is the best city for you to buy a home, given your unique circumstances. If you are currently renting in the Bay Area then we can get a rental price for you. Before you buy we analyse the most critical factors that might affect your home value: Demand We analyse 3 demand factors: * Luxury Homes. In the most crowded areas, luxury properties tend to be quite highly valued (e.g. San Francisco or Manhattan). * Wholesales. Cheap properties tend to be snapped up quickly by investors, which tends to dampen demand (e.g. parts of Sydney, Melbourne, Brisbane). * Price per sqm * Rent vs purchase Demand describes what properties are available for sale or rent. Using our working property inventory on these markets; I find it to be a pretty accurate predictor of what people are willing to pay for certain types of homes in a given market. Our working inventory comes from estimated Comps gathered directly from agents. We also analyse settlement records to identify new home launches where demand has not caught up with supply yet, and adjust our inventory so that it reflects a stable and consistent future supply-demand picture. Supply We analyse 3 supply factors
