The following pages will show you all of the major releases of AutoCAD. Contents show] AutoCAD is an application for the creation of three-dimensional drawings using parametric drawing techniques. It is used to create accurate engineering drawings from very rough drawings that have no geometric accuracy. It creates accurate, high-quality drawings from anything that can be mapped (digitized) in 3D. It can be used to create accurate, parametric 3D drawings, in a wide variety of different field formats. Autodesk is also a CAD software manufacturer. It designs and sells CAD software and hardware. As of 2009, Autodesk's revenue was \$2.3 billion. AutoCAD is available for the personal and professional use of architects, designers, engineers, and other users of CAD systems. It also comes in a version called AutoCAD LT that is intended for use by teachers and students. History Edit 1982 Edit The first release of AutoCAD was in December 1982. Click OK to begin using Autocad.Penguins' 3-5-2 formation is not a perfect marriage The Pittsburgh Penguins and the Florida Panthers were dressed in a simple 3-5-2 formation during the first half of Sunday's game at Consol Energy Center. The Penguins were at a bit of a disadvantage and the Panthers had the advantage on the scoreboard at the half, but this isn't a perfect marriage of a new formation for the Penguins. Instead, it's more of a stylistic change that has only been in the Penguins' system for a year. It's a system that has the Penguins at their best. At the half, the Penguins trailed the Panthers, 2-1, on two goals by Brad Boyes and one goal by Derek MacKenzie. They had a perfect scoring chance by Sidney Crosby to break the tie, but he couldn't find the back of the net. He may or may not find the back of the net early in the second half. Sidney Crosby had an assist on Patric Hornqvist's goal at 12:37 of the second period. That was the only other goal allowed by the Penguins in the first half, when they allowed five goals. They allowed four goals in the first period. Three of the four goals came in the first period. There was more of a line-matching issue in the second half. Both Derick Brassard and James Neal were healthy scratches. Brassard, who has five goals, was a healthy scratch for the first time this season. Neal, who has seven goals, was healthy scratched for the first time. Neal has been an offensive catalyst since returning to the lineup at 5 on Dec. 9. He was a minus-4 in the first eight games of the season and has been a plus-10 in the last 10 games. Brassard has been very good with the puck. He has two goals and one assist in the last 10 games. Brassard, however, has a minus-4 rating in the last 10 games. He has a plus-2 rating overall and a plus-3 rating in the last 10 games. Neal had an assist on Brassard's goal, Hornqvist's goal and Crosby's goal
