RELATED POSTS You may call this a standalone name table converter, but you would miss its functionality if you call it a standalone name translator. Also, it is much more than a specialized name converter. Its capabilities are so extensive that it may even be called an all-in-one name converter software. With that said, let's talk about its... Ever since I have bought VirtualBox for the first time, I have been using it every day. Even though my daily use of VirtualBox is not as much as my VMWare Virtual Machine, I still like the speed that it runs very well. VirtualBox is an open source application that provides both platform independence and enables the users to run more than one operating system at... [read more]

Q: How to avoid the "Failed to apply module path: GetDriversListForDevice_TestApplication (0x2F96D9). " error I tried applying SPFeature module by using below steps. But I am facing error while doing the same: I tried running "Deployed.exe" but error displayed below. Any idea? Thanks

A: If you change the Target Framework of the application to be .NET Framework 4.0, the error should go away. The "Failed to apply module path" error is a bit vague.

2 First Siege (after 553) 25-26 The first [siege] was led by the Emperor and was directed at the Eastern

Turks. Fewer [Turkish] soldiers took part, and they were less prepared than the Eastern Turks. 2 The [Tartar] army got too far north [and lost their way] The siege ended, and the Emperor returned with all the honours of war. The [Berbers of the region] were isolated from the rest of the world after the defeat and capture of many of the emirs. 30 3 Second Siege after 928 31-32 In the second [siege] the Emperor led the army and had the responsibility.
